

You're Never Fully Dressed Without a Smile

By Chuck Rounds

A smile is the best first and lasting impression that you can offer to the world. It can brighten a room, change a mood, lift a spirit, and make you more appealing. There are a lot of great quotes about smiling. It has been recognized as a wonderful thing for centuries. In Proverbs, it says, "If you see a friend without a smile; give him one of yours." Mae West said, "Don't cry for a man who's left you, the next one may fall for your smile;" but my favorite smile quote comes from the Vietnamese Monk, Thich Nhat Hnah, who said, "Because of your smile, you make life more beautiful."

It makes you start to think just how important a smile is. None of the performers in our city would ever go onstage without a smile, and if you don't have the smile that you want, it might be time to get it.

The choices in Cosmetic Dentistry vary widely throughout our city, but I recently got to sit down with Dr. Olya Banchik, who specializes in smile makeovers, and her approach is the most appealing that I have found.

Both her office and her manner have a way of putting you at ease.

One of Olya's greatest assets is her skill at listening. It is a very personal approach that directly addresses the needs and concerns of her patients. She makes sure that you are comfortable, and her care exceeds all expectations.

Dr. Banchik is just as passionate about performing smile makeovers as she is about establishing solid relationships with her patients. Her office is a place where the patients truly come first.

Many dental offices book up to five chairs at a time...Olya takes care of one person at a time. You can tell that there is something different about this office when you walk in...there are not rows of chairs with a half

dozen people waiting for their turn. The office does not overbook the schedule, and because of this, there are not long waits. Additionally, the office will adjust their hours to fit your schedule. You can set an appointment in the early morning, late evening, and even on the weekends.

Olya treats all of her patients as if they are part of her family. The attention is absolutely individualized and the patients' comfort is of utmost concern. Even the dental chair is modified for your comfort. A flat screen monitor is mounted above the chair so that, while the work is being done, you can watch TV or a movie. Her specialized education combined with broad experience provides her patients with state of the art, personalized dental care. As an active member of several dental organizations, Dr. Olya Banchik remains on the forefront of cosmetic dentistry.

Like any good dentist, Olya continues to study the art of dentistry. She continues to take courses in the most advanced techniques of aesthetic dentistry and treatment of temporomandibular disorders at the Las Vegas Institute for Advanced Dental Studies.

Dr. Banchik offers a complete range of dental services, including Complete Smile Makeovers, Veneers, Porcelain Crowns, Gingival Recontouring, Implant Restoration, Laser Dentistry, Invisalign®, Whitening, Custom Smile Design, Amalgam Removal, Crowns, Bridges, Partial Dentures, Complete Dentures, Oral Cancer Screening, Emergency Dental Care, and more.

It is always encouraging to see someone that is passionate about what they do, and when it comes to high quality personalized dental care - Dr. Olya Banchik is certainly the person to which to talk.
